

Shockwave Single Panel LED Light

Modular LED Upgrade for Fluorescent

Description

The Shockwave LED Upgrade for fluorescent lighting was designed for use in any condition. With the strength of a die-cast aluminum housing and superior light output, the Shockwave is the perfect fluorescent replacement for use in mining, industrial, or commercial applications.

Features and Benefits

- Single Panel Modular LED Upgrade for Fluorescent
- 120° Beam Spread
- The Single Panel Shockwave is designed with two panels of high efficiency SMD LEDs to produce a 120° spread of light.
- Low Power Consumption
- The Shockwave Single Panel LED produces 875 lumens at only a .83 amp draw per 1 foot section.
- Heavy Duty Design: The Single Panel Shockwave is built to last with strengthened die-cast housing for superior heat dissipation. Electronic Thermal Management works to regulate internal LED temperatures to prolong the life of the LEDs. The Shockwave has universal mounting options and has the option of an integrated power supply mount.
- Weatherproof Deutsch Connector
- Die-Cast Aluminum Housing
- Polycarbonate Lens

Applications

Agricultural, Construction, Fire & Rescue, Forestry, Industrial

Tech Specs

Warranty	Extended
Available Housing Color	Black, White
Available Beam Patterns	120°
Mounting Depth	0.16"/4 mm
LED Lifespan	50,000 Hours
Height	2.56"/65 mm
Depth	1.73"/44 mm
Input Voltage	24V DC 90-480V AC w/Optional Inverter
IP Rating	IP-68
Vibration Rating	15.6 Grms
Operating Temp	-20 Celsius ~ +40 Celsius
