

# APS Guardian LED Marking Light

The Lightest, Brightest, Toughest Light In Its Class

## Description

The Guardian is the lightest, brightest, toughest light in its class. This light, unlike its competitors, is visible from all sides (omni-directional) and extremely impact resistant. In addition, the Guardian is very lightweight and will not restrict movement. The product comes with a variety of attachments that can be fastened to either the user or to the equipment.

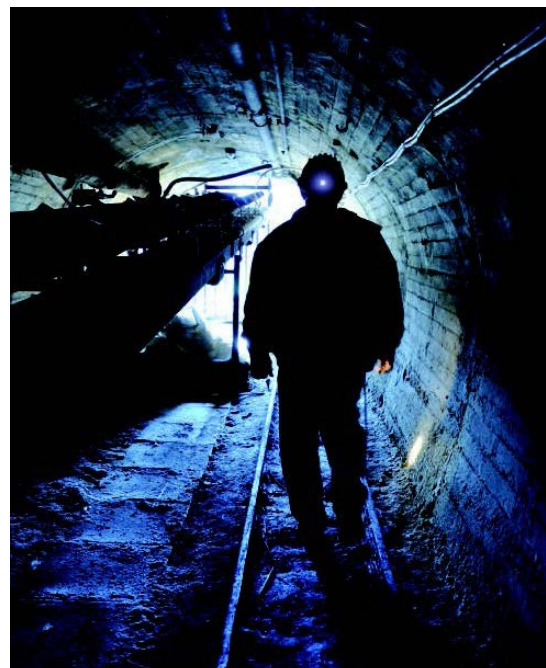

The light is available with either a belt clip, wrist strap/arm band, swivel clip key chain attachment, or magnetic base.
