

Vision X Ripper 12 LED

Capable of standing up to 60 Grms of intense vibrations

Description

Both the Ripper 12 were engineered to work harder and longer than any other LED work light in their class. Capable of standing up to 60 Grms of intense vibrations in the harshest conditions, these dual-mounted lights are the perfect solution for replacing unreliable lights on your work site.

Rugged and Durable Construction

The combination of a die-cast 6061 aluminum housing, unbreakable polycarbonate lens, integrated Deutsch connector, reinforced gasketed bezel, and a strengthened trunnion bracket create a one of a kind, high-powered light that will outshine and outlast the competition.

Prime Drive Technology

Prime Drive Technology from Vision X Lighting controls vital functions such as temperature control and dimming on your LED Light Bar. This advanced technology can increase or decrease the intervals at which the LEDs turn on and off in order to lower the bars overall temperature and maximize the lifespan.
