

Speaker 793 Safety Light

A whole new kind of “Keep Out” safety zone lighting

Description

The Model 793 will revolutionise safety zone indicator lighting. It offers best-in-class light intensity and light quality; it's the industry's only UL Recognised safety zone light; and it comes in three colour configurations to create the best solution for each industry and application.

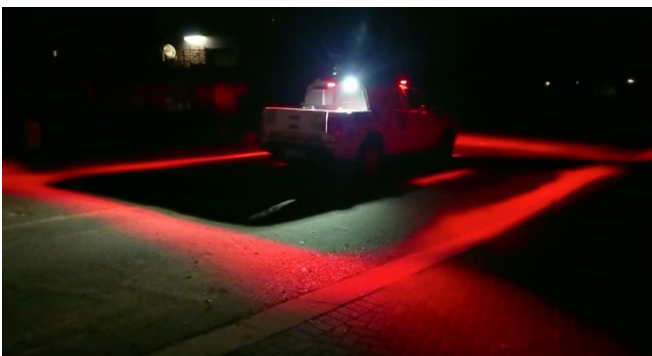

There are countless examples of where safety-zone lighting is needed and appropriate—they're all too important to trust to an inferior light. With its superior intensity and light quality.

Features and Benefits

- Helps identify dangerous areas to personnel
- Use on vehicles, machinery, or stationary objects
- Rugged design allows nearly unlimited uses
- The only UL Recognised safety-zone light

Applications

Civil, mining, material handling, utility, waste trucks
